Faisalabad

EXPERIENCE

Python Programmer

Corvit Systems

📅 09/2022 - 11/2022   📍 Faisalabad

- Worked in Python programming language to Managed the instances of AWS
- Collaboration with the team to fulfill cloud-based tasks
- Developed many complex automation scripts, increasing project efficiency by reducing manual tasks significantly.

MERN Intern

MERN Bootcamper

📅 02/2023 - 2023   📍 Faisalabad

- Designing and implementing user interfaces for websites or web applications
- Writing clean, efficient, and maintainable code using React JS along with the **Tailwind CSS**. Building full stack applications in **MERN**, also working with firebase and **react native**.
- Optimizing web pages for maximum speed and scalability
- Testing and debugging front-end code to identify and fix any issues or bugs
- Ensuring cross-browser compatibility and responsiveness of websites
- Keeping up-to-date with the latest web development trends and technologies
- Boosting code efficiency by 40% through component reuse and modular design.

Front-end Developer

CodSoft

📅 08/2023 - 09/2023   📍 Remote

- During this remote internship I worked on the front end projects
- Personal Portfolio
- Blog Website

MERN Stack Intern

TopperWorld

📅 08/2023 - 09/2023   📍 Remote

- During my remote internship, I made some projects which are:
- Flipkart Clone
- Landing Pages
- Real time applications like tic tac toe and online code editor.

MERN Stack Intern

CodeClause

📅 12/2023 - 01/2024   📍 Remote

- Todo list in React JS
- Timer and Stopwatch
- Survey system

MERN Stack Intern

Sync

📅 12/2023 - 12/2023   📍 Remote

- Landing Page in React
- Quiz App in React
- E-Learning App in React
- Music Player in React

Front End Developer

Thresh Tech AI

📅 06/2024 - 08/2024   📍 remote

- Worked as a front-end developer, focusing on creating user-friendly interfaces for AI-related projects.
- Designed user interfaces using **Figma** and transformed those designs into **React** code.
- Developed systems for **patient and doctor appointments**, ensuring a smooth user experience and effective functionality.

SUMMARY

I am a **Software Engineer** with strong skills in web development, specializing in the **MERN** stack (MongoDB, Express, React, Node.js), and certified in **Cyber Security**. I have over 2 years of industry experience and love building user-friendly applications. My skills include React, TypeScript, NEXT JS and more. I am passionate about solving problems, learning new technologies, and ensuring security in digital solutions. I am hardworking, motivated, and always ready to take on new challenges.

SKILLS

NEXT JS   Javascript   Bootstrap   CSS

Redux Toolkit   Express JS   Express JS

Firebase   Front-end   Git/Github

TypeScript   HTML5   Java   Kali Linux

Node JS   Node.js   Cloud Computing

MongoDB   React JS   AWS   Python

Rest API   MSSQL   OOP   Tailwind CSS

React Native   Socket io   PHP   Redux

Software Testing   MUI

Computer Netwroking   ASP.NET

EDUCATION

BS Software Engineering

Government College University Faisalabad

📅 09/2020 - 06/2024   📍 Faisalabad

GPA **3.75** / 4.0

I.C.S and Matric

KIPS College

📅 05/2018 - 06/2020   📍 Faisalabad

- 1012/1100 92%
- **Matriculation**
- Govt Muslim Girls High School
- 04/2016 - 04/2018
- 1033/1100 94%

EXPERIENCE

Full Stack Developer

Zephrex

📅 08/2024 - 09/2024 📍 remote

- Worked as a full stack developer, building both front-end and back-end parts of a web application.
- Developed a **CRM system for real estate**, handling client data, property listings, and user interactions.
- Held **regular team meetings** to discuss progress and challenges, and helped in **dividing tasks** among team members for efficient project management.

Software Engineer Fellow in AI projects

Headstarter

📅 07/2024 - 09/2024 📍 remote

- Focused on AI projects, contributing to software engineering tasks in a collaborative environment.
- Focused on how to use AI in Next JS.

MERN Stack Instructor

itec systems

📅 11/2023 - 09/2024 📍 Faisalabad, Pakistan

- Delivered in-depth lessons on the MERN stack, guiding students through coding exercises, real-world projects, and software development best practices. Provided mentorship and fostered a collaborative learning environment, ensuring practical application of concepts.

KEY ACHIEVEMENTS

💎 **Certifications And Training Bootcamps**

Gemini Ultra 1.0 Hackathon
24h Claude Hackathon
Aspire leader programs
MERN Stack Certification
cs50x harvard Certificate
WordSprint 3.0 Hackathon winner (ICodeGuru WPBrigade)
Microsoft C# .NET Training Certification(HCC Foundation
Cyber Security Certification
Python Programming (Stanford University Code In Place)
Software Testing Bootcamp (HCC foundation)
